

DrillSafe

AUSTRALIA'S DRILLING INDUSTRY HEALTH SAFETY AND ENVIRONMENT FORUM

DrillSafe Ethos

Compiled by:
Gary Jones
DrillSafe Chairperson 2010/2011

www.drillsafe.org.au

Purpose of DrillSafe

A forum for learning and sharing of best HSE practices for the Australian Drilling and Well Services Industry

.....we share the good and the bad.

- Share safety and environmental incidents relevant to the industry.
- Present initiatives and programs that companies and relevant bodies are running both within and outside of Australia.
- Promote initiatives of global interest and concern with relevant industry and national bodies, report progress of same.
- Identify HSE focus areas and promote appropriate coverage.

History of DrillSafe

- Started in 1996 by BHP with their direct contractors.
- BHP invited their JVPs and then other key operators in Perth.
- By 1997/98 it had expanded to include all operators, contractors, regulators.
- Renamed as DrillSafe circa 2000.

Who Attends

- All operators, primary drilling contractors, service providers and individuals – all are welcome.
- 120 – 250 attendees at quarterly meetings
- Current committee makeup:
 - Rig Contractors:** Maersk, Transocean, Diamond, Nabors
 - Operators:** BHP, Woodside, Total, Vermillion, Chevron, Santos, Exxon
 - Services:** Halliburton, Schlumberger
- Previous Chairpersons from:
 - BHP, Santos, Woodside, Transocean, Vermillion, Apache

1.00pm	DrillSafe Close	Gary Jones
1.10pm	Lunch	
1.40pm	DrillWell Open	
1.45pm	Rig Schedule	Derek Morrow
2.00pm	TS Marine - Conductor Installation from Back of Boat (45mins)	Roy Grant
2.45pm	Close	

Next Forum: Thursday 2nd December – Melbourne

Please take a couple minutes to complete the Forum Feedback form on your way out, alternatively complete it online www.drillsafe.org.au

Example Forum Agenda

Chaired by Sponsor

Guest Speaker

Updates on Industry Initiatives

Discussion of Incidents / Sharing

Panel Session (not all forums)

Technical Sharing Session (Drill Well)

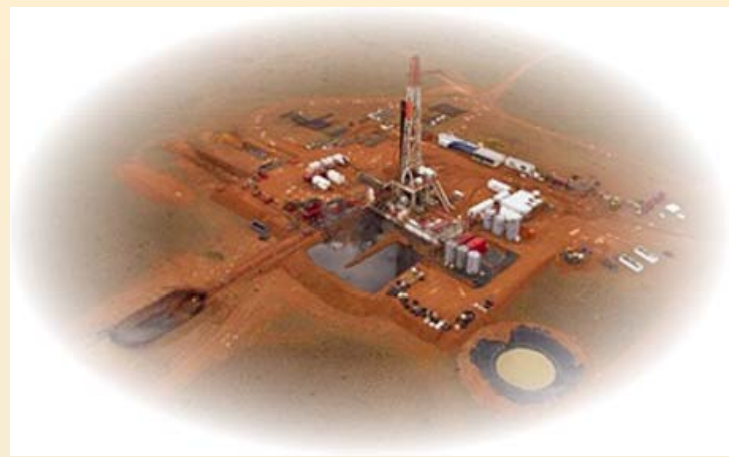

The key to Drillsafe's sustainability

- Committee with “stroke” in their own organisations
- Free entry due to sponsorship support
- Networking opportunity – drinks, breaks etc.
- Mature industry prepared to present their shortcomings warts and all
- Relevant topics – local incidents and initiatives
- Keep it simple – no working groups / no work expectation
- Senior company representation at forums
- Presented in key operating areas (annually 2 x Perth, 2 x interstate)
- Non commercial.... no sales pitches
- Can opt out and come back in...it keeps rolling

Success Stories

- Joint Operator Auditing Program (HSEQ).
- Joint training initiative.
- Hands off loads initiative.
- Uptake of aero medivac...eg. Aspen Jet
- Rationalising HUET training & duration (TBOSIET)
- Expanding minds – increased “Health” focus and initiatives offshore.

....and you never know what sharing prevented an incident that never happened.

What has not worked so well?

- Trend in corporate policies restricting contribution.
- Early efforts to create working groups failed
- Threats to website publishing. Press using it for negative information.
- Committee members without company empowerment.

A snapshot of 2010 forums

March: Perth sponsored by Woodside (attendance 240)

- *Themes:* readiness for Well Control response

June: Adelaide sponsored by Santos (attendance 120)

- *Themes:* hands safety, driving safety and dropped objects
- Engineering role in elimination of hazards ie. engineering in design

September: Perth sponsored by Maersk (attendance 200)

- *Themes:* cyclone evacuation, industry initiative updates

December: Melbourne sponsored by Esso Australia

- *Themes:* Macondo investigation findings / platform drilling operations
